Profile

Cyber Security graduate with hands-on experience in technical support and troubleshooting. Currently working as an Apple Technician in a technical retail environment, supporting Apple devices and assisting customers with setup, repair, and issue resolution. Strong problem-solving skills, attention to detail, and ability to explain technical concepts clearly. Looking to build a career in IT Support where I can develop practical skills and contribute to a technical team.

Key Skills

- Technical Troubleshooting (iOS, macOS, devices)
- Customer Support & Communication
- Problem Solving & Analytical Thinking
- Device Setup & Configuration
- Data Handling & Attention to Detail
- Working in Fast-Paced Environments
- Basic Programming (C, C++, SQL, HTML, PHP, JavaScript, Python)

Education

De Montfort University

BSc Cyber Security

Modules included: Computer Networks, Cryptography, Linux Security, Penetration Testing, Windows Forensics, Cyber Threat Intelligence, Incident Response

Work Experience
